REFERENCE:

The Board submits that Sec.60(2) of the Abolition Act lays down that persons whose services are retained shall be governed by such rules as the Government may make in regard to them. In their order No.P.S.2767 (Rev.Dept.) dated 27.10.49 the Government have issued certain rules under this section. They do not contain any provision for the transfer of an estate employee from one estate to another either within the same district or outside the district. The Board considers that there should be some provision in the rules for the transfer of estate - employees, on administrative grounds. If there are surplus hands in an estate who are qualified to be retained in service, they can be transferred to other estates where there is dearth of hands. These estates employees may have taken local roots and it may not be in the interests of administration to keep them long in one place. Just like other Government servants they should also be prepared for transfer from one estate to another on administrative grounds. In some cases, such transfers may be necessary to create the impression in the minds of the public that the

old order has changed.

2. In the circumstances, the Board submits that the Collectors of districts may be permitted to transfer persons retained in service from one estate to another if both the estates are situated within one district and the Board may be permitted to effect such transfers if the estates are in different districts. As under Rule 6 of the rules issued by the Government in G.O. F.S.No.2767(Rev.Dept.) dated 27th October 1949, the several posts in estates will have to be classified into groups according to the corresponding cadres in Government service, the pay of the holders of the posts who may be transferred from one estate to another will not be affected by any such transfers. The Board submits for the consideration and approval of the Government the following draft rule under Sec.60(2) of the Act for giving effect to the above proposal.

"9. On administrative grounds, the collector of a District may transfer any person retained, from one estate to another, if the two estates are within his district, and the Board may order such transfer if the estates are in two different districts. Such transfers will not, however, affect the pay of the individuals transferred."
